CRETEOFF

SAFETY DATA SHEET

SECTION I - IDENTIFICATION

1.1 PRODUCT NAME: CRETEOFF
PRODUCT CODE: 2424-C
1.2 USES:
1.3 Company Name: PIC SISTEMAS
Company Address: PASEO REAL 323 COL. COLINAS DEL SOL TAMPICO, TAMPS.
1.4 Office Phone: 833 1260257 | 833 3454119**EMAIL:**
ventas@picsacv.com.mx

SECTION II - HAZARD IDENTIFICATION

Hazard Classification

- Serious eye irritation, category 2A
- Skin irritation, category 2

Hazard Pictograms
(Exclamation mark pictogram)

Signal Word
Warning.

Hazard Statements

- H315: Causes skin irritation.
- H319: Causes serious eye irritation.

Precautionary Statements

- **P264:** Wash thoroughly after handling.
- **P280:** Wear protective gloves/protective clothing/eye protection/face protection.
- **P301+330+331:** IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- **P303+361+353:** IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.
- **P305+351+338:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- **P404:** Store in a closed container.
- **P501:** Dispose of contents/container in an authorized disposal plant, in accordance with local, regional, national, or international regulations.

SECTION III - COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Nature: Mixture of organic acid and surfactant

Hazardous Ingredients and Impurities

Chemical Name	CAS Number	Percentage
Proprietary organic acid	Proprietary	20 – 30%

SECTION IV - FIRST-AID MEASURES

Description of first-aid measures

General Advice
·First Aid responders should pay attention to self-protection and use the recommended protectiveclothing. If potential for exposure exists refer to Section 8 for specific personal protective equipment. ·Show this material safety data sheet to the doctor in attendance.

In case of inhalation
·Move affected individual to fresh air and keep comfortable for breathing. If not breathing, giveartificial respiration; if by mouth-to-mouth use rescuer protection (pocket mask, etc.). If breathing is difficult, oxygen should be administered by qualified personnel. Call a physician if necessary.

In case of skin contact
·In case of contact, immediately flush skin with plenty of water for at least 15 minutes whileremoving contaminated clothing and shoes.

In case of eye contact
·Rinse immediately with plenty of water, also under the eyelids, for at least 15minutes. · Seek medical advice

In case of ingestion
·If swallowed, seek medical attention. Do not induce vomiting unless directed to do so bymedical personnel.

Most important symptoms and effects, both acute and delayed

·Aside from the information found under Description of first aid measures (above) and Indication ofimmediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.
·Skin contact may aggravate an existing skin disease.

Notes to physician
·All treatments should be based on observed signs and symptoms of distress in thepatient. · Treat symptomatically.
·There is no antidote.

SECTION V - FIREFIGHTING MEASURES

Flash Point > 200oF (Pensky Marten Closed Cup)
Autoignition Temperature No data available
Flammability/Explosive limit No data available

Extinguishing media

- Water fog or spray
- Dry chemical fire extinguishers
- Foam
- Carbon dioxide CO2

Unsuitable extinguishing media
- None known

Special hazards arising from the substance or mixture
Specific hazards during fire fighting
- Hazardous decomposition products may form while on fire

Hazardous combustion products
- Oxides of carbon

Advice for firefighters
Special protective for firefighters
- Wear a positive-pressure self-contained breathing apparatus (SCBA) and full protective clothing **Fire Fighting methods**
- Do not use a direct water stream as it may spread fire.
- Isolate fire and deny unnecessary entry. Standard procedure for chemical fires.

SECTION VI - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
- Isolate area and deny unnecessary entry
- Wear suitable protective equipment.
- Refer to Section 8 "Exposure controls/ personal protection"
- Ventilate are of leak or spill

Environmental precautions
- Prevent spill material from entering soil, ditches, waterway or groundwater
- Spills may be reportable to the National Response Center and/or to state and local agencies

Methods and materials for containment and cleaning up
- Absorb material with sand, dirt, diatomaceous earth, vermiculite, etc...
- Shovel or sweep up material
- Place in a container for disposal according to local, state, or federal regulations

SECTION VII - HANDLING AND STORAGE

Precautions for safe handling
- Wear personal protective equipment and observe good industrial hygiene practices.

Conditions for safe storage, including incompatibilities
- Store in the original container.
- Keep the container tightly closed when not in use.
- Keep away from open flames, hot surfaces, and

SECTION VIII - EXPOSURE CONTROLS/PERSONAL PROTECTION

Due to variations in safety procedures, work environments, and handling practices, these recommendations should be viewed as general guidance. Most equipment manufactures can assist with the use and maintenance of worker protection equipment.

Control parameters

Component	Regulation	Type of Listing
None listed	-	-

Exposure controls

Engineering measures
·Use engineering controls to keep airborne levels below exposure limits to minimize employeeexposures. · Effective exhaust ventilation system
·Eye wash facilities and emergency shower should be available when handling this product
Individual protection measures
·Eye/face protection: Safety glasses with side shields
·Skin/hand protection: Wear suitable protective gloves, clothing, and footwear.
·Respiratory protection: Wear suitable respiratory equipment in cases of insufficient ventilation.Select NIOSH.MSHA approved equipment in accordance to industrial recommendations or regulatory standards.

Hygiene measures
·Practice good personal hygiene measures, such as washing hands after handling the materialand before eating, drinking, smoking, applying cosmetics, or using the toilet.

SECTION IX - PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical state Liquid
Form Liquid
Color Emerald Green
Odor Characteristic
Odor Threshold No data available
pH 2 – 3 @ 10%
Melting/freezing point < 32 ˚F
Boiling point 212 ˚F
Flash Point >200oF (Pensky Marten Closed Cup)
Evaporation Rate No data available
Flammability (solid) No data available
Flammability (gas) No data available Flammability (liquid)
No data available Upper/lower flammability or explosive limits
Lower (%) No data available
Upper (%) No data available

Autoignition temperature No data available
Vapor pressure No data available
Vapor density No data available
Relative Density 1.0 - 1.1 (25oC)
Solubility Soluble (water)
Partition coefficient No data available
Decomposition temperature No data available
Viscosity No data available
Volatiles by volume No data available

SECTION X - STABILITY AND REACTIVITY

Reactivity No dangerous reaction known under conditions of normal use. Chemical stability Product is stable under normal conditions.
Mixing with incompatible materials may cause splattering and release of large
Possible hazardous reactions
amounts of heat.
Conditions to avoid Mixing with incompatible materials Incompatible Materials Strong alkalis and oxidizing agents
Hazardous products
decomposition Oxides of carbon

SECTION XI - TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Inhalation Inhalation of mists could have an irritation effect on the respiratory tract
Skin contact Causes skin irritation.
Eye contact Risk of serious damage to the eyes.
Ingestion If swallowed, may cause severe oral and esophageal and mucus membrane,
and gastrointestinal burns and possible perforation. If swallowed,
May pose a lung aspiration hazard during vomiting.

Acute toxicity.

Acute oral toxicity LD50 (rat): 2,040 mg/kg
Acute inhalation toxicity LC50 (rat): 3.6 mg/l @ 4 hours
Acute dermal toxicity No data available
Acute toxicity (other) No data available

Skin irritation Causes skin irritation.
Serious eye damage/irritation Risk of serious damage to the eyes.
Respiratory or skin sensitization Does not cause sensitization
Germ cell mutagenicity No data available
Carcinogenicity Not classified as a carcinogen by IARC, ACGIH, NTP, or OSHA

Toxicity for reproduction and development
Reproductive toxicity Not expected to cause reproductive effects.
Developmental toxicity Not expected to cause developmental effects.
Specific target organ toxicity
Single exposure No data available
Repeated exposure No data available
Aspiration toxicity No data available

SECTION XII - ECOLOGICAL INFORMATION

Ecotoxicity

Acute toxicity to aquatic invertebrates EC50(daphnia): 99.6 mg/l, 48 hours
Toxicity to aquatic plants No data available
Toxicity to microorganisms No data available
Chronic toxicity to fish No data available
Chronic toxicity to aquatic invertebrates No data available
Chronic toxicity to aquatic plants No data available
Persistence and degradability
Biodegradability Readily biodegradable
Bioaccumulative potential
Partition coefficient: n-octanol/water No data available
Bioconcentration factor (BCF) No data available
Mobility in soil No data available
Other adverse effects No data available

SECTION XIII - DISPOSAL CONSIDERATIONS

Disposal instructions Dispose of contents/container in accordance with local/state/federal regulations.
Hazardous waste code May be regulated as a hazardous waste.
Waste from residues/unused products Dispose of contents/container in accordance to local/state/federal regulations.
Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION XIV - TRANSPORTATION INFORMATIONUN

	ONU Number	Description	Hazard ous Class	Grupo de embalaje / envase	Label
DOT	-	Not regulated for transport			
IATA	-	Not regulated for transport			
IMDG	-	Not regulated for transport			

Marine Pollutant (Yes/No) No
Notes Please refer to latest shipping document for the most up to date shipping information including exemptions and special circumstances. Transportation
classifications may vary by container volume and may be influenced by regional or
country variations in regulations

SECTION XV - REGULATORY INFORMATION

Inventory Information Status
·United States TSCA Inventory On TSCA Inventory
·Canadian Domestic Substances List
(DSL) All components of this product are on the Canadian DSL · Australia Inventory of Chemical Substances (AICS) On the inventory, or in compliance with the inventory

·Japan. CSCL - Inventory of Existing
and New Chemical Substances On the inventory, or in compliance with the inventory ·Korea. Korean Existing Chemicals

Inventory (KECI) On the inventory, or in compliance with the inventory · China. Inventory of Existing
Chemical Substances in China (IECSC) On the inventory, or in compliance with the inventory

US. EPA EPCRA SARA Title III SARA
